objective

An ambitious front-end web developer eager to secure an entry-level position in a supportive organization. With a strong foundation in HTML, CSS, JavaScript, and React.js, I am passionate about building user-friendly web applications. I aim to apply my skills, continuously improve my technical knowledge, and contribute to innovative projects. I am driven to work collaboratively, embrace challenges, and create impactful web solutions. My goal is to grow professionally and make meaningful contributions to the success of the organization.

Education

Bachelor of Computer Application, Junagadh, Gujarat
Dr. Subhash University

Higher Secondary Certificate, Alpha High School Junagadh, Gujarat

Secondary School Certificate,, Alpha High School Junagadh, Gujarat

| • HTML | • CSS | • Javascript |
| • Bootstrap | • JQuery | • React JS |

Training

FULL STACK INTERN, GRRAS SOLUTIONS Pvt. Ltd (05/2024 - 12/2024)

Academic Projects

Movie Ticket Booking System

Movie Booking System Project Duration: June 2023 – September 2023

Collaboratively developed during my 5th semester of BCA with a team member.

- Enables users to browse movies, select showtimes, and book tickets online.
- Features a user-friendly interface with various movie options and seat selection.
- Enhances the movie-watching experience with a seamless and efficient booking process.

Hotel Management

Hotel Booking System Project Duration: October 2023 – February 2024

Collaboratively developed as the 6th-semester major project for my BCA with one team member.

- Designed a user-friendly interface using Python libraries like Tkinter for GUI development.
- Created a robust database schema with SQLite/MySQL to manage rooms, guests, reservations, and billing details.
- Implemented key functionalities such as room booking, check-in/check-out processes, invoice generation, and error handling for data integrity and reliability.
